

LIFE IN A CHALLENGED ENVIRONMENT

We live in overcrowded cities and spend hours a day commuting to frustrating and sometimes thankless jobs. We're challenged by the economy and often struggle to make ends meet. In today's challenged environment, our bodies are under constant stress from:

- Stress
- Negative thoughts
- Downward pressure of gravity
- Over 80,000 man-made chemicals and pollutants, some banned for centuries
- The air we breathe
- The water we drink
- The food we eat
- Electro-magnetic radiation (EMF)
- Cell phones
- Scars
- Magnets and many more...

We invite you to help your body thrive in today's environment with Nutrazon's Amazing Nutritional Beverage.

NUTRITION YOU CAN EXPERIENCE

From the first ounce of Nutrazon, you'll experience the goodness and raw power nature provided us in this proprietary blend of extracts from the Rainforests of South America. Through years of research and validation, scientists concluded these extracts, combined with their array of active ingredients, can help us thrive in today's challenging environment and experience a balanced lifestyle.

From your first sip, you will experience an immediate increase in....

- Strength
- Balance
- Coordination
- Flexibility
- Calmness
- Endurance
- Mental Clarity
- Focus
- Recall
- Stress Reduction

Nutrazon makes a difference you can see and feel immediately! Unlike the typical anti-oxidant juice where you have to wait 30, 60, or in many cases, 90 days to see if you get any result!

Nutrazon is a one of a kind. It is the world's first Functional Beverage designed to show a demonstrable result. Our proprietary blend, a hand-picked combination of very extraordinary nutrient packed botanicals from the Rainforests are designed to create an environment for the body to repair itself.

ALL NATURAL INGREDIENTS

Dragon's Blood - *Croton Palan stigma*

The curative power of the sap is widely known throughout the indigenous tribes of Mexico, Peru, and Ecuador. The wide range of potential includes wound healing and the reduction of inflammation. Dragon's Blood has gained a reputation for supporting the body in its fight against tumor growth, heart disease, viruses, ulcers, rashes, dermatitis and gastro-intestinal problems.

Cat's Claw - *Uncaria Tomentosa*

It's been called a superb immune system booster, a vigorous antioxidant, a plant able to flush toxins from the body, and a kind of scrubber that removes plaque buildup in clogged arteries. It has a reputation to support the body in its fight against conditions such as lupus, arthritis, bursitis, fibromyalgia, chronic fatigue syndrome and chemical and environmental allergies.

Maca - *Lepidium Meyenii*

Maca was first discovered and later cultivated by the natives of ancient Peru, the Incas. It is best known for its support for a broad range of ailments from infertility, sexual vigor, stamina, altitude sickness, mental acuity and lack of energy.

Noni - *Morinda Citrifolia*

Noni has been used for over 2000 years as an antibacterial, anti-fungal, anti-inflammatory, antiviral and to help with blood pressure control. Research has confirmed its effect on cancer and tumor growth in animals and for pain and stress control in humans.

Lutein -

In Addition to lowering the chance of disease, lutein also supports healthy eyesight..

Lycopene -

A prostate cancer study conducted by Harvard researchers showed lycopene was clearly linked to supporting a healthy prostate.

Omega-3 Fatty Acids -

Have been shown to support the body in significantly reducing the risk for sudden death caused by cardiac arrhythmias.
